High quality standards
SAMARIT transfer aids have:
• Design patents
• 2 years warranty

www.samarit.com
SAMARIT sliding boards are Nursing aids for moving a seated patient with limited forces from the middle or edge of the bed to a wheelchair, a car seat or a toilet. Here the patient may not be able to stand but can change position when sitting independently or with the help of a healthcare professional.

While the smooth surface reduces friction resistance to a minimum, non-slip adhesive strips ensure that the GLIDEBOARD doesn’t slip away. The GLIDEBOARD is made of an unbreakable material, is acid-resistant and easy to clean and disinfect. A non-slip adhesive strip enables it to be positioned safely on the bed, wheelchair, car seat or other seating options. Five versions are available for different purposes.

The SAMARIT GLIDEBOARD range has been developed for special use with the support of therapists.

Greater mobility with GLIDEBOARD

Seated transfer for care stations, therapy centers and home care.

This sliding board makes it easier for healthcare professionals to transfer patients from the middle of the bed to a wheelchair, to the toilet, to the car seat or a chair.

**THE BIGGEST**
Order No. 476.0102
UDI/GTIN 7640144460921

- Size: 100 x 34 cm / 39 x 13 inch
- SWL*: 220 kg / 485 lbs
- Weight: 2.9 kg / 6.4 lbs
- Material: HDPE

This sliding board makes it easier for healthcare professionals to transfer patients from edge of the bed to a wheelchair. The product is used mainly today to transfer patients from wheelchairs into large vehicles (SUVs etc.).

**THE GREAT**
Order No. 476.0080
UDI/GTIN 7640144460938

- Size: 80 x 33 cm / 32 x 13 inch
- SWL*: 220 kg / 485 lbs
- Weight: 2.6 kg / 5.7 lbs
- Material: HDPE

The original GLIDEBOARD «Banana» sliding board is a very tried and tested classic from Switzerland, developed with therapists by SAMARIT and patented as a design. This sliding board is often used in particular to enable sedentary patients to transfer independently to wheelchairs, car seats or chairs.

**CURVED GLIDEBOARD**
Order No. 476.0012
UDI/GTIN 7640144460945

- Size: 68 x 23 cm / 27 x 9 inch
- SWL*: 200 kg / 440 lbs
- Weight: 1.2 kg / 2.6 lbs
- Material: HDPE

This sliding board is used mainly by patients who can transfer themselves under their own steam.

**SELFGLIDE**
Order No. 476.0050
UDI/GTIN 7640144460952

- Size: 50 x 21 cm / 20 x 8 inch
- SWL*: 180 kg / 397 lbs
- Weight: 0.8 kg / 1.8 lbs
- Material: HDPE

This sliding board has been specially developed for paraplegic patients. The carer can move the patient safely onto the sliding board without lifting thanks to its unique fish tail. It is characterised by the ease with which the patient can be sat upon, by the manner in which it can be inserted from both sides and is utilised for transfer bed – chair – toilet, etc.

**TETRAGLIDE**
Order No. 476.0863
